Innovative & Collaborative

“We innovate with expertise and collaborate to
deliver reliable lighting solutions.”

ABOUT OUR COMPANY

METARIGSTEELWORKS(OPC)PVT LTD provides professional installation and maintenance services for **high mast lights, street light poles, stadium lights, flag mast poles, cable laying, and solar street-light conversion solutions.**

Established in **2026**, the company specializes in high mast lighting systems up to **30 meters**, along with complete hardware, fixtures, and fittings. Our team is trained in the latest techniques, ensuring **precise, safe, and efficient installation** with uniform light distribution.

With a strong, skilled workforce—experienced, semi-skilled, and unskilled—we deliver reliable services across multiple locations and complete every project **on time with high quality**. We also have extensive expertise in **tower installation** and large-scale lighting infrastructure.

MULTIPLE STYLE CUSTOMIZATION

Six major service advantages make us stand out

1. Double A arm

2. A arm

3. Curved arm

4. Single arm

VISION

To become India's most trusted lighting infrastructure partner by delivering innovative, safe, and reliable high-mast and street-lighting solutions that enhance public spaces, improve visibility, and support sustainable growth in urban and industrial areas.

MISSION

01

To deliver precise, safe, and reliable installation services for high mast and street lighting systems using advanced techniques and well-trained skilled manpower.

02

To provide long-lasting lighting solutions through quality materials, experienced teams, and efficient project execution that ensures consistent performance in every environment.

03

To complete all projects on time with professionalism and ensure customer satisfaction through responsive service, transparent communication, and strong technical expertise.

PRODUCT OVERVIEW

HIGH MAST LIGHTING

We deliver custom high-mast lighting solutions designed for wide-area illumination. Our expert installation ensures precise alignment, safe execution, and uniform light distribution for maximum visibility and performance.

STREET LIGHTING

SOLAR STREET LIGHTS

We specialize in supplying and installing solar street lights tailored to your budget and application needs. Equipped with smart sensors, they automatically switch on at sunset and off at sunrise for maximum energy efficiency.

FLAG MAST POLE

We provide high-quality Flag Mast Pole installation services with complete precision and reliability. Our skilled professionals ensure every mast is installed exactly as per design and client requirements, delivering safe, accurate, and durable results.

CABLE LAYING WORK

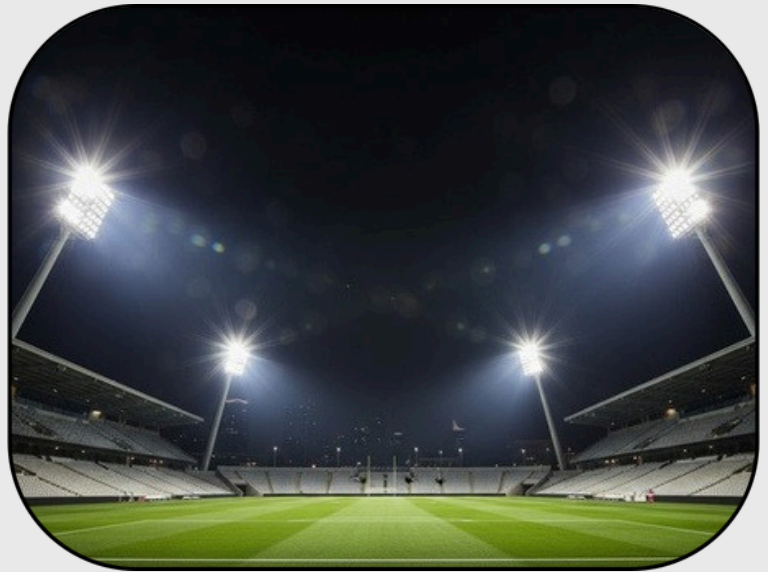

We provide reliable power cable laying services for safe and efficient electrical distribution. Our trained and experienced team specializes in all types of underground cable installation, ensuring accuracy, durability, and smooth project execution.

STADIUM LIGHTING

We design, supply, and install customized sports lighting solutions for stadiums, arenas, and outdoor fields. Our advanced LED systems deliver powerful illumination, long-lasting durability, and excellent energy efficiency.

Industrial Areas & Factor ies

We provide robust lighting poles suitable for harsh industrial environments, ensuring reliable illumination for operations, security, and worker safety across factory premises.

Railway Stations & Metro Stations

Specialized lighting poles designed for continuous performance and high visibility in busy transit areas, ensuring passenger safety and smooth station operations.

Airports & Cargo Terminals

High-performance lighting poles engineered for wide-area illumination at airports, cargo bays, and runways, meeting strict safety and compliance standards.

Public Gardens & Parks

Aesthetic and eco-friendly lighting poles that transform parks and gardens by providing soothing and uniform illumination for evening visitors.

Bus Stands & Transport Yards

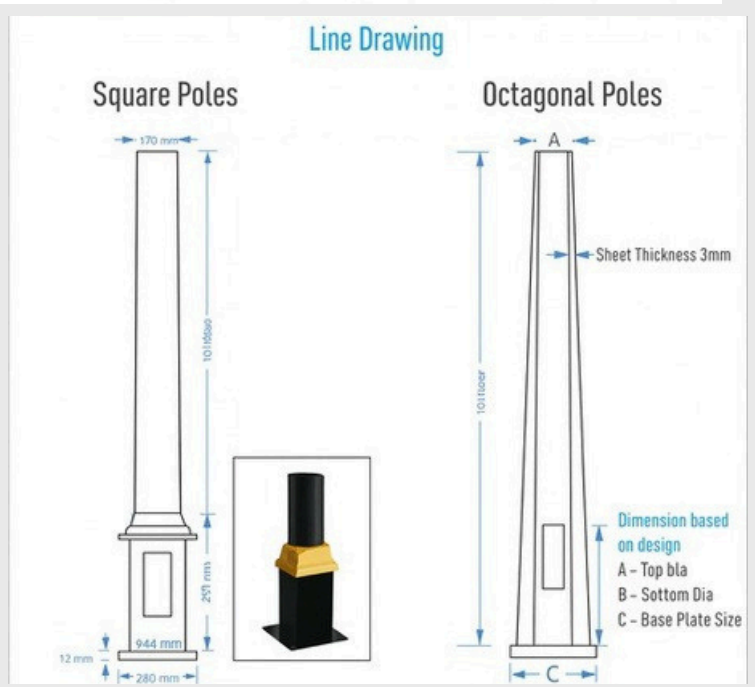

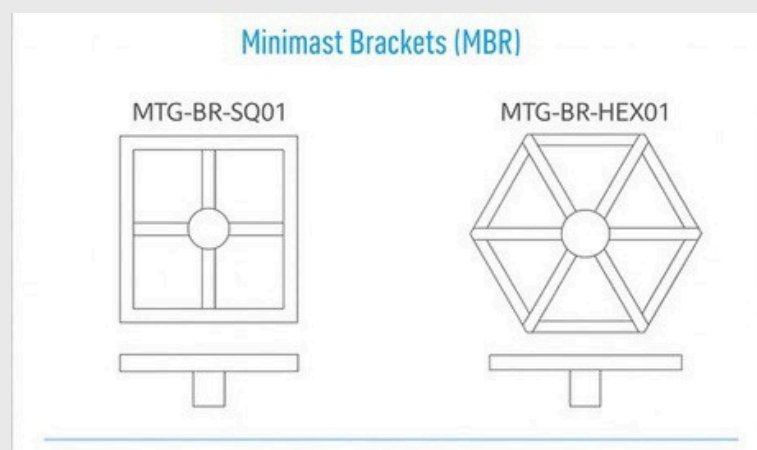

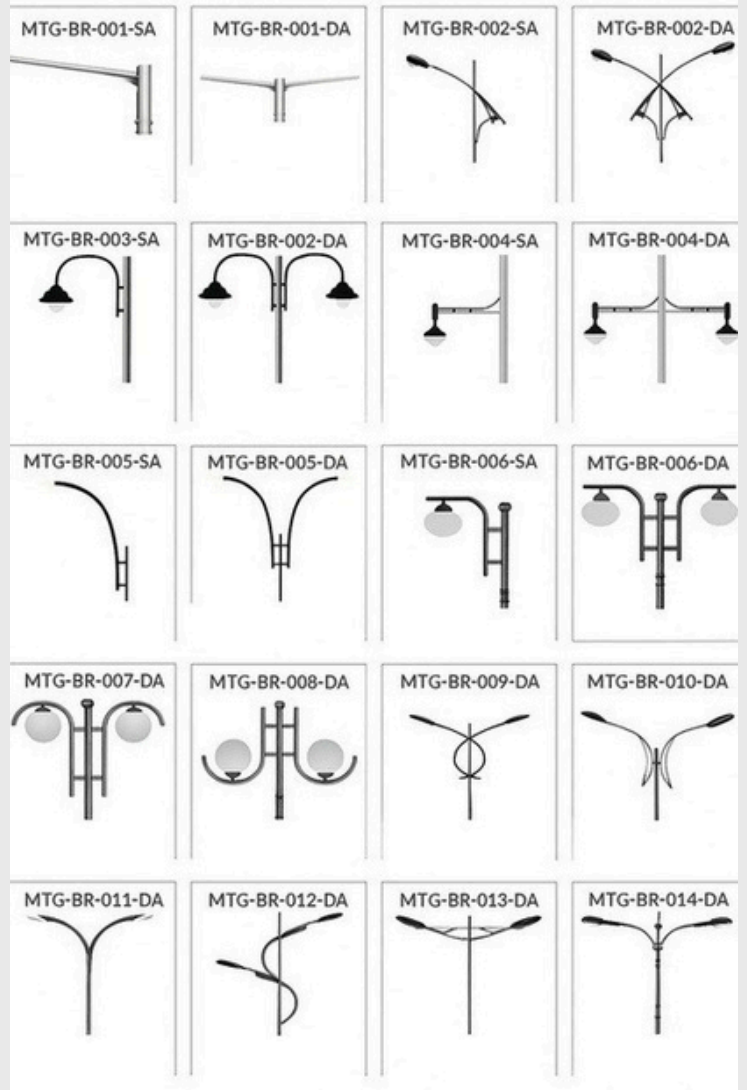

Reliable lighting solutions for bus depots, stands, and transport yards to improve passenger safety, traffic flow, and night-time operations.

Toll Plazas & Checkposts

High-intensity poles that offer clear illumination at toll booths and checkpoints, ensuring smooth traffic, surveillance clarity, and operational efficiency.

Product Code	Height (1+H meter)
TUBULAR POLE	
MTG-TP-3001	3 m
MTG-TP-4001	4 m
MTG-TP-5001	5 m
MTG-TP-6001	6 m
MTG-TP-7001	7 m
MGT-OP-8001	8 m
MGT-OP-9001	9 m
OCTAGONAL POLE	
MTG-OP-3001	3 m
MTG-OP-4001	4 m
MTG-OP-5001	5 m
MTG-OP-6001	6 m
MTG-OP-8001	7 m
MGT-OP-9001	9 m
HIGH MAST	
	Height (H meter)
MTG-HM-9M	9 m
MTG-HM-12M	12 m
MTG-HM-16M	16 m
MTG-HM-20M	20 m
MTG-HM-25M	25 m
MTG-HM-40M	30 m
